During these challenging and uncertain times, we are united in supporting the Robert H. Lurie Comprehensive Cancer Center of Northwestern University and Ann & Robert H. Lurie Children’s Hospital of Chicago.

With the generosity of many of our board members, committee members and ambassadors we were able to purchase 1,800 KN95 masks which were distributed to the Lurie Cancer Center and the Lurie Children’s Pediatric ICU on Wednesday.

We deeply thank the individuals who supported not only Dr. Platanias and Dr. Saratsis but all of the brave frontline workers who were able to utilize the masks for their safety and that of their patients.
